Subject: Redi Rock Positive Connection Retaining Wall Submittal Phases I and III

Dear Mr. Eull:

Thank you for your comprehensive responses to all of MnDOT's comments on Redi Rock Positive Connection retaining wall submittal. MnDOT has reviewed the responses and approved the system. The system will be added to the prequalified list for Phase I and III systems.

The pre-qualification of Redi Rock Positive Connection retaining wall system will not be regarded as final design acceptance. Each project will require the submittal of a project specific design that meets all MnDOT and AASHTO specifications and requirements. Also note that the design procedures for the walls must be in accordance with MnDOT's guidelines.

If you have any questions or comments, please feel free to call me at 651-366-4485.

Sincerely,

A handwritten signature in cursive script, appearing to read "Khalid Obeidat".
